#### Objects of the Society

The Society exists to promote the study of agricultural history and the history of rural economy and society. It does this through the publication of its biannual journal *The Agricultural History Review*, and its newsletter, *Rural History Today*, and by holding at least two conferences each year. These activities are contained in the Society's constitution adopted at its foundation in 1953, and subsequently modified at the Society's Annual General Meetings in 2000 and 2016.

#### Report on Activities during the Financial Year

#### **Publishing**

This continues to be the principal means by which the Society fulfils its objectives. The Society published two issues of *The Agricultural History Review*, Volume 67 (2019) in June and January Back numbers of the Review are freely available to all via the website, three years in arrears: the website currently has copies up to 2016 (vol 64). The Society also published two issues of the newsletter *Rural History Today* (nos 37 and 38), which is widely distributed beyond the membership of the Society, and is freely available to all on the BAHS website. The website also, amongst other things, hosts LIBRAL (Library of Irish and British Rural and Agricultural Literature), which provides direct free access to digitised literature on the subject. During the year £5,256 was spent on LIBRAL development, scanning a wide range of works

#### Grants

The Society offers grants to individuals, societies and institutions in the furtherance of its objects. During the year £1308 grants and bursaries were taken up, including three bursaries and a conference grant. In addition, a prize award of £500 was again made from the Joan Thirsk Fund

#### Conferences

The Annual Conference was held at Nottingham University in March 2019 and the Winter Conference was held at University College London in December 2019.

#### Membership

Subscriptions were increased at the start of the year to £30 for individual or joint members, and £42 for individual or joint members overseas. There is a concessionary rate of £15 for students. The annual subscription for Libraries and other Institutions is now £120. The long-term decrease in Institutional members continued. The number of individual members also reduced, with some members currently 'on hold' as they have renewed at the old rate and not responded to requests to make up the arrears. Most new members continue to join through the website, paying by PayPal. Electronic access to the *Review* via Ingenta is provided free for individual members and institutional subscribers.

#### Accounts for the Year to 31 January 2020

On the advice of our Examiner, we have changed our accounting method from accruals-based to 'receipts and payments'. This is more appropriate for a society of our size, and allows better focus on the in-year operating surplus or deficit, rather than on the unrealised movements in the value of our investments. This has involved re-stating last year's accounts, to bring them onto the same basis as the current year.

The Society made a surplus of £7,650 in the year compared with a re-stated deficit of £1,262 in 2018-19. This was in part due to the one-off effect of ceasing to treat advance subscription payments and Spring Conference fees as belonging to the next year. Nevertheless, it was gratifying to note that income from subscriptions and journal sales increased as a result of the subscription increase, to £36,839, compared with a restated £31,346 the previous year. Note also the improved investment income, as a result of moving part of our holdings from National Savings Bonds to the higher yielding St James Place fund. Publication costs were up somewhat on the previous year, while an increased spend on LIBRAL and deferred Editor's remuneration were the other factor leading to an overall year-on-year expenditure increase.

The balance sheet reflects the unrealised gains in the value of our investments, as the markets recovered from the uncertainties of the previous two years (this was, of course, before the reaction to Covid-19 sent the markets spiralling downwards). In all we have some £138,260 of cash and investments at current values (£117,394 in 2018-19).

The Joan Thirsk Fund again made a prize award of £500, reducing the balance to £370: this will require 'topping up' in 2020.

#### **Reserves Policy**

The Society's policy is, taking one year with the next, to spend the income it receives in pursuit of its objectives, while setting aside any surpluses to cover future projects, and to generate future income to support the society's grants and awards. The Society has no Restricted Funds. Its Unrestricted Funds currently stand at £138,260 out of which two Designated Funds have been set aside by the Trustees, as follows

**Designated Projects and Initiatives Fund**, currently standing at £25,030 (invested in COIF). This is set aside to pay for new and continuing activities which cannot readily be funded from in-year revenue. Expenditure from this fund is at the discretion of the Trustees, but in particular is expected to provide for the future development of the website, and the LIBRAL digitisation project.

**Research and Grants Fund**, currently standing at £47,992 (invested in CAF and St James Place). This is intended to be an investment fund, the income from which (£1668 in the current year) will be used for the provision of grants and donations to support new research, and events such as conferences, awards and publications in the Society's area of agricultural and rural history.

The **Unrestricted, Undesignated** balance of our reserves stands at £65,238, equivalent to somewhat more than a year's current expenditure. It is the intention of the Trustees to aim to maintain this fund at a level sufficient to cover seasonal and unexpected fluctuations between income and expenditure, without having to sell any of our investments, which might incur significant losses.
