

New Forest Knowledge Conference 2018

THE ROLE OF COMMONING IN THE MAINTENANCE OF LANDSCAPE AND ECOLOGY: A NEW FOREST, NATIONAL AND GLOBAL PERSPECTIVE

Tickets £15

Commoning is recognised as important in the survival of the New Forest: a prized reserve for endangered species and a beautiful landscape enjoyed for recreation.

A conference about the role of commoning in the New Forest and beyond

Date:
Monday 29th October 2018, 9.30am-5pm
Venue:
Lyndhurst Community Centre, Lyndhurst SO43 7NY

The New Forest commoning system has been described as unique in North Western Europe, characterised by the exercise of common rights by 700 commoners.

This conference will consider the use and significance of common pool resources from a historical, local, national and international perspective. Speakers include researchers from HIWWT, Foundation for Common Land, Friends of the New Forest and Countryside and Community Research Institute.
