

Notes on Contributors

RICHARD ARMITAGE is Senior Lecturer in Geographical Information Systems in the School of Environment and Life Sciences and is a member of the Ecosystems and Environment Research Centre at the University of Salford, having moved from Kingston University in 2003. His teaching and research focus on linking environmental information derived from remotely sensed data with demographic information to produce neighbourhood characterizations and assessments of urban areas, applying GIS and Remote Sensing to the mapping of landscape, particularly the characterization of landscape boundaries and measurement of landscape change using landscape metrics. Address: School of Environment and Life Sciences, Peel Building University of Salford, Greater Manchester, M5 4WT; email: r.p.armitage@salford.ac.uk.

ALAN R. H. BAKER is an historical geographer at the University of Cambridge. He has published extensively on field systems in medieval England and on the agricultural and social history of nineteenth-century France. He has edited and co-edited many books and is author of two: *Fraternity among the French peasantry: sociability and voluntary associations in the Loire Valley, 1815–1914* (Cambridge, 1999) and *Geography and history: bridging the divide* (Cambridge, 2003). Address: Emmanuel College, Cambridge CB2 3AP; email: arb1000@cam.ac.uk.

CHANTAL BISSCHOP studied history at the K. U. Leuven (2002–2007). Currently, she is preparing a PhD thesis on ‘The rural movement in Flanders, 1960–1990’ at the Interfaculty Centre for Agrarian History (ICAG, K. U. Leuven). Address: Atrechtcollege, Naamsestraat 63, 3000 Leuven, Belgium; email: Chantal.Bisschop@icag.kuleuven.be.

RIEN EMMERY studied history at Ghent University (2001–2005). Currently, he is affiliated with the research unit Modernity and Society, 1800–2000 (K. U. Leuven), preparing a PhD thesis within the framework of the project ‘Paradoxical rurality. Dwelling in rural Flanders, 1948–1978’, funded by the Research Foundation – Flanders (FWO). Rien.Emmery@arts.kuleuven.be.

RODNEY EDVINSSON earned his PhD from the Stockholm University in 2005. He has published extensively on Swedish economic and monetary history. He is also the editor of *Historicalstatistics.org*. He is now associate professor in economic history and senior lecturer in international relations at Stockholm University. Address: Department of Economic History, Stockholm University, SE-106 91, Stockholm; email: rodney.edvinsson@ekohist.su.se.

OBI IWUAGWU teaches Economic History, Development Studies and Public Policy at the Department of History and Strategic Studies, University of Lagos, Nigeria. He has published extensively on Nigeria’s economic history and especially on the subjects of rural development and food production. Address: Department of History and Strategic Studies, University of Lagos, Yaba, Lagos, Nigeria; email: obiiwuagwu@hotmail.com.

LOUISE MISKELL gained her BA and PhD in History from the University of Wales, Aberystwyth, and subsequently worked as a post-doctoral researcher in History at the University of Dundee. Her research interests focus on industrialization and urbanization in the eighteenth and nineteenth centuries. She is now a senior lecturer in History at the College of Arts and Humanities, Swansea University, Singleton Park, Swansea SA2 8PP; email: l.miskell@swansea.ac.uk.

BRIAN SHORT is Emeritus Professor of Historical Geography at the University of Sussex. His research in recent years has centred on aspects of the interaction of central government surveillance with rural society and economy in twentieth-century Britain. This has included a monograph *Land and Society in Edwardian Britain* on the Lloyd George land valuation c.1910, and several publications on the impact of the Second World War on British rural society, including jointly editing *The Front Line of Freedom* for the BAHS supplement series. He is currently finishing a book on the activities of the British County War Agricultural Executive Committees 1939–59. He also has a longstanding interest in the rural and landscape history of South-East England, and is currently President of the Sussex Record Society and a Council member and Trustee of the Sussex Archaeological Society. Address: Department of Geography, University of Sussex, Brighton BN1 9SJ; email: b.m.short@sussex.ac.uk.

KATHERINE TAYLOR has recently gained a PhD at Kingston University and holds an MSc in Environmental Change from Brunel University, both completed following an early career in local government. Her research focuses on agricultural geography with a particular interest in applying Geographical Information Systems to explore and recreate historical rural landscapes and to investigate land use change in the 20th century. She is currently moving the focus of this research to the second half of the 19th century using the Books of Reference published by the Ordnance Survey to accompany the first edition 1:2500 maps. Address: School of Geography, Geology and the Environment, Kingston University, Penrhyn Road, Kingston upon Thames, KT1 2EE; email: ku44377@kingston.ac.uk.

NIGEL WALFORD is Professor of Applied GIS in the School of Geography, Geology and the Environment at Kingston University. He has a BA (Hons) from University of Sussex, a PhD from University of London and is a Fellow of the Higher Education Academy. His teaching and research interests include geodemographics, data and statistical analysis, land use and planning, Geographical Information systems (GIS), agricultural and rural geography. Current research projects relate to the application of GIS to developing mobile GI tools to help older people navigate around unfamiliar spaces; to improving analysis; mapping of British population census statistics over time and to building a database of agriculture and farming on the South Downs in the twentieth century. Address: School of Geography, Geology and the Environment, Kingston University, Penrhyn Road, Kingston upon Thames, KT1 2EE; email: N.Walford@kingston.ac.uk.
